END THE OCCUPATIONS OF IRAQ & PALESTINE

JOIN THE S27 GLOBAL PROTEST

"We are going to fight them and impose our will on them and we will capture or ... kill them until we have imposed law and order on this country"

- Paul Bremer - US chief administrator in Iraq - on the on-going 'liberation' of Iraq

On 20th March the US & Britain launched their war against the people of Iraq. In the months since, over 7,000 Iraqis have been killed and not a single weapon of mass destruction has ever been found. Each day brings fresh civilian casualties in scenes reminiscent of Bloody Sunday.

Despite talk of reconstruction, basic services like water and electricity remain in scant supply. Hospitals are starved of the supplies they need to treat the victims of war in rising summer heat. Millions now face starvation and disease. The country's infrastructure has been completely destroyed, yet the only advanced programme is for the total privatisation of Iraq. The tyranny of Saddam Hussein has been replaced with the tyranny of colonial occupation.

Yet, the people of Iraq have not bought the myth of liberation. They realise all too well that the US has no intention of leaving their land or building a democracy. Instead, US forces in Iraq could be used as a springboard for regime-change in Iran. A real Iraqi resistance movement is emerging as tens of thousands take to the streets demanding the immediate withdrawal of occupying forces. **Supporting the people of Iraq to end this brutal occupation must remain at the heart of the global anti-war movement.**

JOIN THE GLOBAL PROTEST ON SEPTEMBER 27th

Across the planet on February 15th tens of millions demonstrated against war on Iraq. This movement will take to the streets of the world again on September 27th - the third anniversary of the Palestinian Intifada. S27 has been called as an **International Day of Action against the Occupations of Iraq & Palestine**. In Ireland, the Irish Anti-War Movement is calling a major national mobilisation against the occupations and against the continued collaboration of our government with the world's real terrorists. Join with us again on September 27th and help build the global movement against war & occupation.
